MOST HELPFUL MOST RECENT STAR RATING

Carole Bean Kincaid reviewed MFC Center for Health 5 January 28, 2017

I am so grateful for Dr. Farley and his passion to keep learning and working for those that are suffering. I had a list of 10 major issues showing up in the blood work and it went down to 4 in 6 months. Dr. Farley gives you all the tools you need for your body to heal without drugs and the repercussions of that. It's up to you to decide to work thru it. He certainly does his part. Amazing and I am most grateful to him and his team.

Stacy Boitnott Moore reviewed MFC Center for Health 5 March 3, 2015

Dr Farley and staff are true blessings in my life. Because of the intellect Dr. Farley has past onto me, my life is forever changed. He is the best thing (with the one exception of my husband) that has happened to me. Because of him, I now have my life back. Dr Farley is by far the most intelligent individual I have ever interacted with - and I am proud to call him my doctor! I'm in the hands of someone great - someone I trust - and someone that surpasses all expectations I've had for any doctor! He is truly the best.
